Hey Rachel,

Looks like we are good here in R4 at 10 am Tuesday, 3 pm on Wednesday, and 2 pm on Thursday...

Let me know if you need some more times. Feel free to send us a meeting invite or if you need me to send you one, we can.

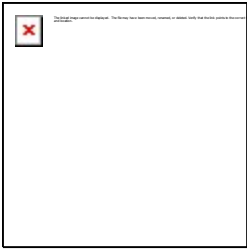

Thanks
Katy

Thank you, Lynorae. Katy and Todd, please let me know some good times for you and Melissa and I will talk with you then.

Best,

Rachael Hamilton

Hi Rachael,

Thank you for your email. By way of this email, I am looping in Katy Lusky, acting chief of the Air Analysis and Support Branch and Todd Rinck, chief of the Air Data and Analysis section. This issue is handled out of that Branch.

Stay safe.

Lynorae

Subject: Possible Exceptional Event Demonstration

Lynorae:

Louisville Gas and Electric has approached APCD and KY DAQ with a preliminary Exceptional Event analysis from Alpine Geophysics for a series of wildfires in Arizona during June 2020. It's our understanding that this is the same event that several jurisdictions in Region 5, including Cincinnati/Hamilton County, have proposed or are proposing for approval as an exceptional event. We are currently evaluating Alpine Geophysics' analysis, but Melissa and I would like to schedule a call with you in the meantime as an early (really early) coordination step as we consider our next steps.

If you'll let us know some days/dates that work for you, we'll find a good time to fill you in on where we're at.

Stay well,

Rachael Hamilton
